

# Save time scheduling and reduce labor costs with a solution that you (and your staff) will love.

Managing your restaurant schedule doesn't have to be a pain. 7shifts users save up to 80% of the time normally spent on scheduling while improving profitability and communication. We will help you:

- ✓ Reduce labor costs up to 3% through efficient scheduling
- ✓ Create staff schedules quickly and make updates easily
- ✓ Improve communication with your workforce
- ✓ Manage employee requests in one place
- ✓ Provide free mobile apps for iPhone and Android

"7shifts has been a tremendous benefit to my business. We have been able to significantly streamline our scheduling and staff communication with the free mobile apps. We've also significantly reduced our labor costs thanks to built-in budgeting tools. Lastly, the software is extremely easy to use and setup. I would recommend 7shifts to any restaurant operator!"

— Kaleb Herrley, Pizza Inn, Big Spring, TX

## Includes everything you need to help your restaurant thrive:

### POS Integration

We integrate seamlessly with the top restaurant POS systems in the industry.

### Integrated time clocking

Manage your staff time & attendance with time clocking that syncs with your schedule

### Text notification & Chat

Staff are alerted when shifts are changed and you can message individual staff.

### Manager log book

Allow managers to write logs for each day after their shift ends and catalogue them.
