

DISCOVER

Complete SaaS Application Discovery

14-Day Free Trial Available

Augmentt Discover gives you complete visibility into your client's SaaS stack to eliminate Shadow IT risks.

Quickly **IDENTIFY** all the SaaS Application being used

Automatically **CATEGORIZE** the applications by job function

Instantly **CLASSIFY** the apps according to their security, financial or productivity risk.

How it works

Using our advance log file analysis framework, Augmentt Discover allows you to quickly identify every SaaS application being used on your clients' network, across the entire employee base. Once the data has been loaded into the system, Augmentt Discover compares it to our internal SaaS Application database which includes over 15,000+ vendors and applications. By using an advanced application classification algorithm, Augmentt Discover will provide you with actionable data in the areas of finance, security, and productivity.

Top Applications by Risk Level

High Risk ▾

| Application | Category | Visits |
|-----------------|--------------------|--------|
| google-cloud | Undefined | 794 |
| Microsoft Azure | Storage | 290 |
| Passkey | Travel | 215 |
| slack | Undefined | 110 |
| chargebee | Financial Services | 36 |
| 7 Star Dreams | Music | 31 |

Top Applications by Productivity Level

Low Productivity ▾

| Application | Category | Visits |
|-------------------|-------------------|--------|
| google-cloud | Undefined | 4147 |
| Netflix | Entertainment | 233 |
| Passkey | Travel | 215 |
| Exit Games | Entertainment | 147 |
| AccuRently | Rental & Vacation | 140 |
| Jump Gaming, Inc. | Gaming | 108 |

Features

Powerful Log Analysis

Regardless of the data source, Augmentt Discovery can extract critical SaaS usage data and provide you with actionable results. This includes trended usage over time, by individuals or entire departments.

SaaS Application Database

Augmentt maintains one of the largest known SaaS Application database in the industry. It currently contains over 15,000 vendors and applications, including 50+ sub-categories and 20 different security, financial and productivity and profiles.

MSP vs Customer Views

Augmentt Discovery is a multi-tenant solution that was designed with collaboration in mind. Allow your clients to access the system and see their own organization's SaaS usage, while you view aggregated data across your entire client base.

Reports and Dashboards

Augmentt's customizable dashboards and reports let you see the data you need when you need it the most.

Customizable SaaS Application Database

Since no two organizations are the same, we have made it easy for you and your clients to customize the SaaS Database to create a unique classification and view.

MSP vs Customer Views

Augmentt Discovery is a multi-tenant solution that was designed with collaboration in mind. Allow your clients to access the system and see their own organization's SaaS usage, while you view aggregated data across your entire client base.
