## Customer Relationship Management

Targeted Outreach. Automatic Workflows. Stronger Relationships.

Collect, analyze, and leverage customer data for better relationship management. Our CRM for recruitment empowers your team with automated workflows optimized for the talent acquisition process, including built-in email campaigns, custom email templates, and real-time business intelligence.

## Job Requisition & Distribution

Instant Requisition. Automated Distribution. Increased Placements.

Create a streamlined, efficient system for assigning requirements to recruiters. With CEIPAL, you can automate job distribution, customize workflows, and send pre-programmed reminders so your recruiters are always focused on ROI-generating efforts.

## Candidate Selection

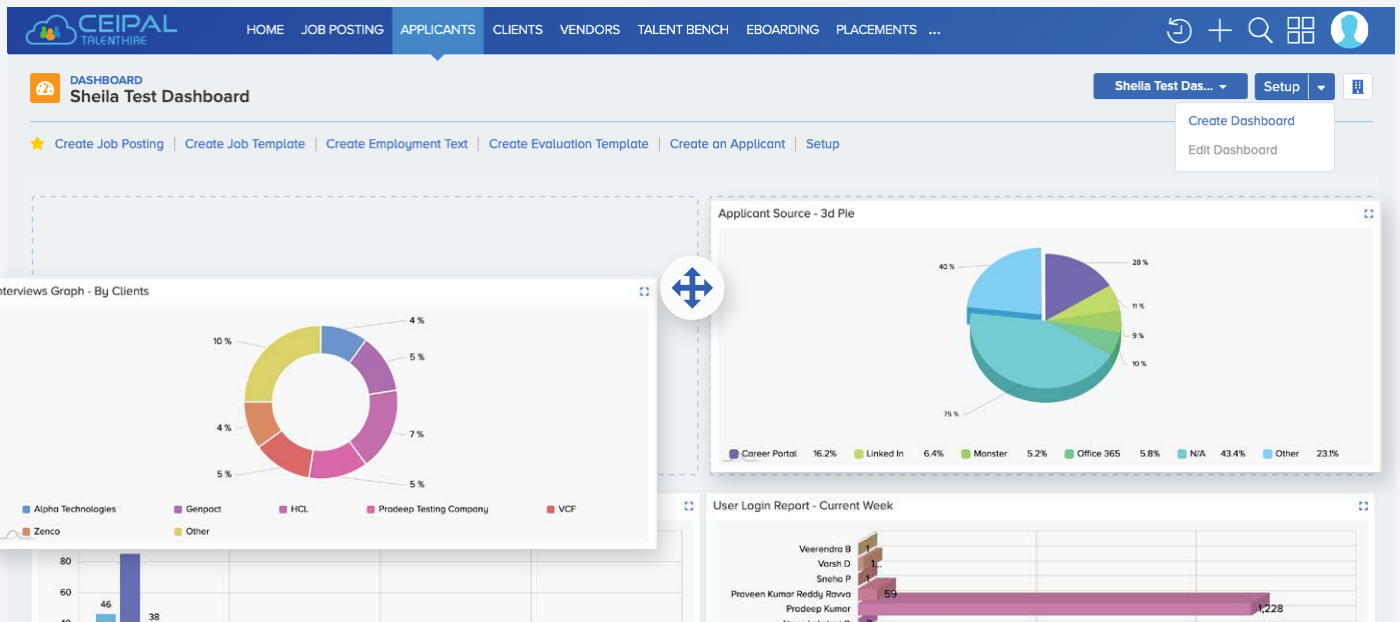

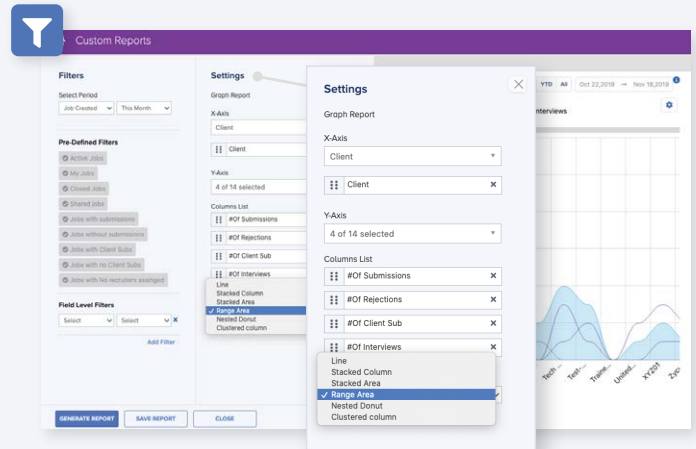

Detailed Analytics. Flexible Interviewing. Streamlined Communication.

CEIPAL's AI-powered analytics remove bias from the selection process while providing an objective shortlist of top-tier candidates. Plus, every candidate is automatically saved to the system with a parsed résumé for future reference.

## Business Intelligence

Built-In Reports. Interactive Dashboards. Total Customization.

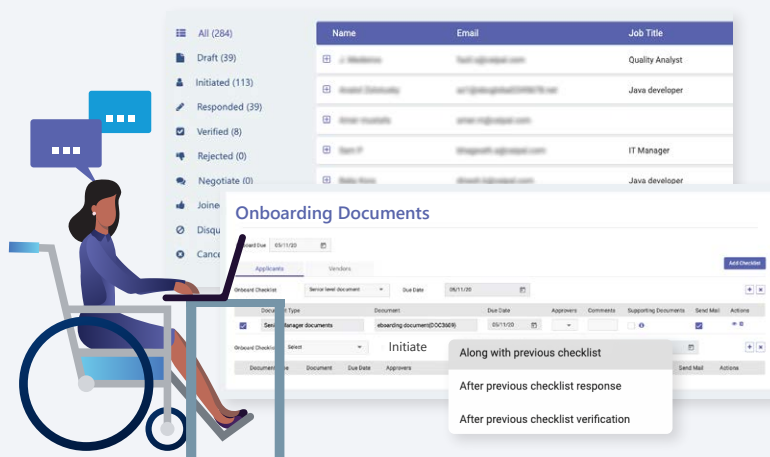

Our business intelligence module offers flexible, user-driven analytics on demand. Get started with one of our +50 built-in reports, customize them as needed, and track progress in the analytics dashboards!

## Employee Onboarding

Paperless eBoarding. Customized Process. Complete Compliance.

Manage the entire onboarding from one place. Our paperless eBoarding portal lets you create, modify, and share onboarding documents, track worker compliance & authorization, and communicate with new hires.

# +150

## INTEGRATIONS

## Integration Partners

Leading Job Boards. Prominent VMS Platforms. Influential Productivity Apps.

With CEIPAL, you have access to +150 integrations, including VMS platforms, free & paid job boards, video conferencing software, career portals, social media sites, and more. The best part? CEIPAL never charges integration fees and is constantly looking for new partners.

## Client & Vendor Management

Consolidated Data. Automated Processes. Increased Satisfaction.

CEIPAL provides modules dedicated to client, and vendor management. You can view submission history, placement statistics, and all communications on file for each account. And you can automatically publish job posts on specific job boards to find better candidates faster.
