# CLEAR IMPACT
## SCORECARD

**Performance Management and Reporting Software**
Easily explain the impact of your work with the industry's quickest, most effective, web-based software for measuring and reporting performance.

## Measure Progress and Improve Performance

Aggregate your process and population data into high-level performance reports. Track the performance of your programs, measure the impact of your funding and report on the progress of your mission to demonstrate results to funders, board members, and community partners.

## Simplify Data Collection and Standardize Reporting

Move beyond Excel spreadsheets, Word documents, and paper reports. Continuously track the progress of one to more than one hundred programs, departments and community partners in hours not weeks with our easy-to-use, web-based reporting software.

## Collaborate with Community Partners and Stakeholders

Get and keep everyone on the same page at all times. Allow internal and external stakeholders to contribute their input, make collaborative, data-driven decisions and achieve collective impact for children, families and communities worldwide.
