

See your expenses from every angle with Live Reports

Abacus Live Reports organize your expenses into flexible, real time report views that reveal meaningful context and enable faster review.

Employees submit expenses tagged with searchable data like amount, department, client, etc.

Live Reports dynamically organize expenses using these data points.

Admins pivot between Live Reports to review expenses contextually and efficiently.

Live Reports make expense review:

Fast

Viewing expenses in digestible reports cuts more than 80% off review time.

Meaningful

Live Reports allow you to track any expense data that's important to your business.

Real Time

Live visibility into company spend helps you keep every department within budget.
