

Ingeniux Software as a Service

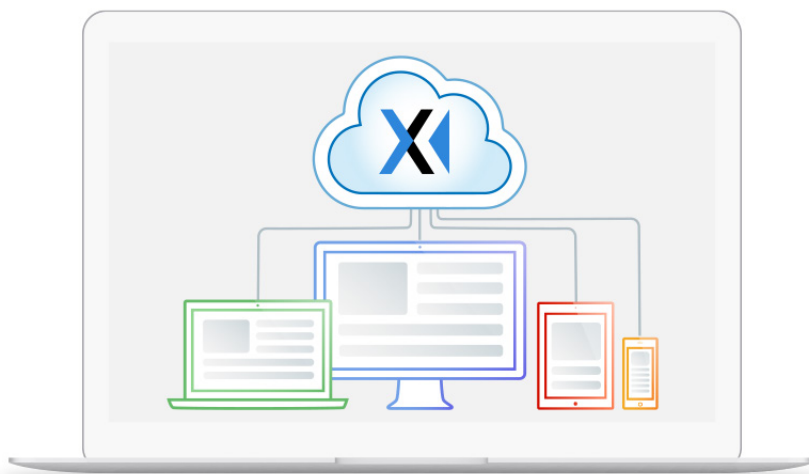

THE AGILE PLATFORM FOR
WEB EXPERIENCE

*Lower your upfront costs and get
a fully managed CMS with the best
support in the industry.*

What is Ingeniux SaaS?

Ingeniux offers a fully managed content management platform that includes the security, operations, and availability that IT requires, with the convenience and performance marketing loves.

Our SaaS offering goes beyond traditional hosting by providing complete application management, change management, performance management, and application optimization led by a team of Ingeniux software experts.

24/7 SUPPORT & MONITORING

Ingeniux CMS is hosted on a virtual server framework that is monitored 24/7, and includes services for provisioning, configuring, managing, and monitoring the Ingeniux application environments.

UPGRADE WHEN YOU WANT

You have full control of the upgrade process and schedule. Test new versions of the Ingeniux software and your published websites before accepting the upgrade and launching in production.

AUTOSCALING CREATES OPPORTUNITY

Struggling with sudden spikes in traffic? Automatically scale up when demand increases and scale down as demand resides.

FULLY SECURE

Ingeniux provides DDoS protection and mitigation services using technologies from Arbor Networks and Radware, and through Azure DDoS. We can also meet PCI and HIPPA compliant measures.

The Environment You Need, Customized to Your Specific Requirements

Ingeniux CMS is the first content management solution to bring together the flexibility of the cloud with the security, performance, and control that enterprises demand.

SaaS Features

USER ACCEPTANCE AND TESTING ENVIRONMENT

Every customer has a dedicated User Acceptance Testing (UAT) environment with your site fully configured by an Ingeniux professional.

FAILOVER AND DISCOVER RECOVERY

Geographically redundant networks with failover and disaster recovery services as well as emergency fail-over service for all live customer websites in the Ingeniux Cloud shared deployment environments.

INTELLIGENT LOAD BALANCING

Ingeniux implements sophisticated load-balancing of live websites to ensure there is no interruption of service during maintenance or when deploying code updates.

MICROSOFT AZURE SAAS OPTIONS

Host your Ingeniux deployment in the Azure Public Cloud or leverage components of Azure such as Blob Storage.

NIGHTLY CMS AND SITE BACKUPS

A 28-day retention policy achieved through a combination of weekly full back-ups and incremental daily back-ups ensures your website and content is never lost.

COMMERCE LEVEL PCI OPTIONS

Supports all four levels of the Payment Card Industry Data Security Standard (PCI) for commerce sites through integrations with key partners.

Why Ingeniux

Ingeniux CMS is the first content management solution to bring together the flexibility of the cloud with the security, performance, and control that enterprises demand.

Use Ingeniux to manage and deploy content across the entire organization, from Marketing to HR. Build Websites, Intranets, Customer Portals, Knowledge Bases and Technical Documentation hubs all with the same platform.

We empower the world's leading companies, associations, universities, government organizations, and non-profits to craft engaging digital content that resonates with customers and community members.

See what's possible.
