Journyx Core Products

Smart time tracking to drive growth at every level.

Journyx is a premier time tracking software for businesses that need to more easily and accurately track employee time for projects, billing, and payroll.

Our time tracking solutions are designed especially for organizations that deliver project-oriented or client-oriented work. Journyx saves time and money for thousands of companies worldwide, across a wide range of industries such as financial consulting, staffing, nonprofit, health care, pharmaceuticals, education, technology, energy (oil and gas), professional services, and more.
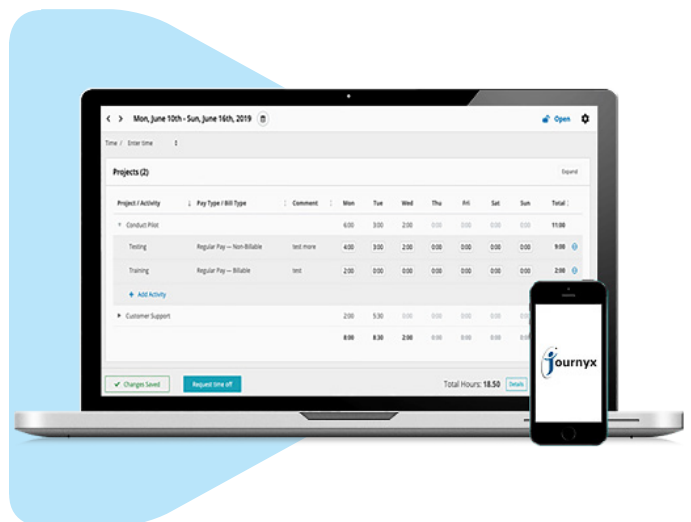

Whether you categorize your work by projects, clients, tasks, or some other name, Journyx will offer you valuable insights into where your business is investing its labor time and money, so you can make better, more informed decisions.

Journyx is highly customizable, easy to use, and integrates with your existing business systems to provide more efficient accounting, auditing, and billing. Learn more about our core products below!

Journyx JX: Time Tracking Software

Our standard time tracking solution—Journyx JX time and expense tracking software streamlines the collection and processing of timesheets. Journyx JX helps companies effectively increase project/account profitability, grow client billings, and reduce payroll time. With Journyx JX, you can easily create detailed time and expense reports to get the data you need, when you need it.

- Reduce costs by automating your time and expense tracking
- Simplify the process of managing employee time off—vacation, sick leave, jury duty, and the like
- Access real-time data with robust time and expense reports

Journyx Core Products

Smart time tracking to drive growth at every level.

Journyx PX: Resource Management Software

Journyx PX takes all the core functionality of our standard time tracking solution, Journyx JX, and adds the ability to forecast costs, revenues, and resource availability for future projects. PX will supercharge your project cost accounting by estimating and tracking work at the resource level—giving you a complete picture of project and budget status, employee time, and availability, all in one place.

- Keep your projects moving along, on time and on budget
- Get a complete picture of project and budget status, employee time, and resource availability
- Allocate staff resources for complex projects while avoiding the complications of overbooking

Journyx WX: Timesheet Essentials

Do you have employees who only need to track time for payroll purposes, and not against projects? There's no need to implement an additional system for this purpose—your entire workforce can use Journyx for both project and payroll time tracking. Journyx WX provides a simple time tracking solution that makes it easy for all of your employees to track non-project time and leave requests for payroll.

- Collect and process timesheets with ease
- Submit and view timesheet data on the go with the Journyx mobile app
- Approve leave requests and automate accrual processes
