

Top 10 Reasons Customers Pick KBMax

1 Rules Engine

Easily handle your most complex products: dynamic fields and mathematical calculations.

2 2D & 3D Visualization

Provide an immersive customer experience by visually updating product options in real-time.

3 End-to-End Automation

Digitally transform your entire sales channel by connecting it with your manufacturing floor.

4 Integrations

Remove headaches with our REST API that can connect any of your business systems and processes.

5 Services Team

Implement quickly and easily with training and support from our world-class services team.

6 Omnichannel Experience

Sell and buy from anywhere...direct from distributors, on-site with your customer, or better yet, directly from your website.

7 Design & Manufacturing Automation

Automatically generate CAD drawings, BOM's and cut sheets that are immediately sent to your manufacturing team.

8 Document Automation

Shorten the sales cycle and increase professionalism with stunning proposals, quotes, BOM's, contracts and more.

9 Dynamic Pricing

Price your product as it's configured with dynamic fields and any level of complexity for calculating real-time prices.

10 Instant On

Constantly support your customers with our true cloud technology that delivers 99.999% uptime and scalability.
