

Backup and IT Management Software Simplified

Powerful data protection, secure remote access, and streamlined IT management in a unified platform.

MSP360™ provides reliable backup and IT management solutions for MSPs and businesses worldwide. The platform combines the number one backup solution, intuitive remote support, and simplified RMM in a single pane of glass to manage all aspects of your IT infrastructure.

Managed Backup

Deliver data protection. Provide backup services with centralized management, monitoring, and reporting. Leverage AWS, Wasabi, Backblaze B2, and local storage.

- ▶ Bring your own storage
- ▶ Flexible pricing with no contracts
- ▶ 2 TB of free trial storage
- ▶ Windows, macOS, Linux, Hyper-V, VMware
- ▶ O365 / G Suite backup
- ▶ 24/7/365 technical support

Remote Desktop

Provide remote support. Securely access and control desktops and servers. Employ an easy-to-use remote desktop solution for Windows, macOS, iOS, and Android.

- ▶ Unlimited connections and endpoints
- ▶ Centralized management
- ▶ Mass deployment
- ▶ Encrypted connection and brute-force protection
- ▶ Chat, file transfer, remote printing

NEW

RMM

Simplify IT management with painless remote monitoring and management built for MSPs and IT professionals.

- ▶ Unlimited endpoints
- ▶ System resources and performance monitoring
- ▶ PowerShell scripting
- ▶ Windows patch management
- ▶ Antivirus management
- ▶ Remote Desktop included
