101 Task Ideas for Any Sales Process

Now that you've picked out your **sales process stages**, it's time to fill those stages with tasks.

Tasks are the recurring activities that your sales reps follow on every lead to keep their deals moving from stage to stage.

Browse through our suggested tasks and grab the ones that make the most sense for how your team sells.

Tasks for PROSPECT stage

Collect recent customer referrals	Leverage a data intelligence tool to create a prospect list from repeat visitors to your website.	Enter new leads into your CRM*
Collect business cards at trade show/networking event	Send direct mail campaign	Identify target accounts (for ABM businesses)
Collect recent leads from website forms and content offers*	Re-engage with lost leads*	Work with your marketing team to run targeted ad campaigns to warm up your cold call list
Research LinkedIn and Twitter for potential buyers	Buy lead list	Filter out any new leads that are clearly bogus

Tasks for PRE-QUALIFY stage

Determine if prospect is the right person to contact, based on their job title	Verify whether or not prospect's company is in an industry that your business serves
Verify size of prospect's company	Prioritize the leads that seem most worthy of your sales team's attention

* Denotes tasks that can be automated in Nutshell. ([Read this](#) for a quick rundown of how to do that.)
