66 Our workforce learned quickly that this app was saving them time and promoting safer work on our job sites.

We sat down with Ron Strik, Construction Manager from Appia

About Appia Jim Bosa established Appia Group of Companies in 1991.

What was the biggest factor in moving

It was Salus' vision and passion for digital safety -

starting right at the top with their CEO - for making

safety documentation more accessible for the field-

worker and where information can be collected and

a digital safety platform?

Appia from a paper-based safety program to

How many forms do your workers submit each day?

300 forms are submitted through the Salus app each

day. Every worker submits a minimum of one daily risk

assessment form. Between those and other forms that

are required throughout the day, it adds up quickly.

" Overall, going digital has been a win-win for both

away from improvements. That being said, if you can show someone there are benefits and ease them into the process - it's a matter of showing them the steps - and the Salus Customer

Overall, going digital has been a win-win for both the employees and the company.
