**EXPERIENCE
DURING THE EVENT**

DURING THE EVENT

Attendees start their journey from a Virtual Lobby. No Downloads Required.

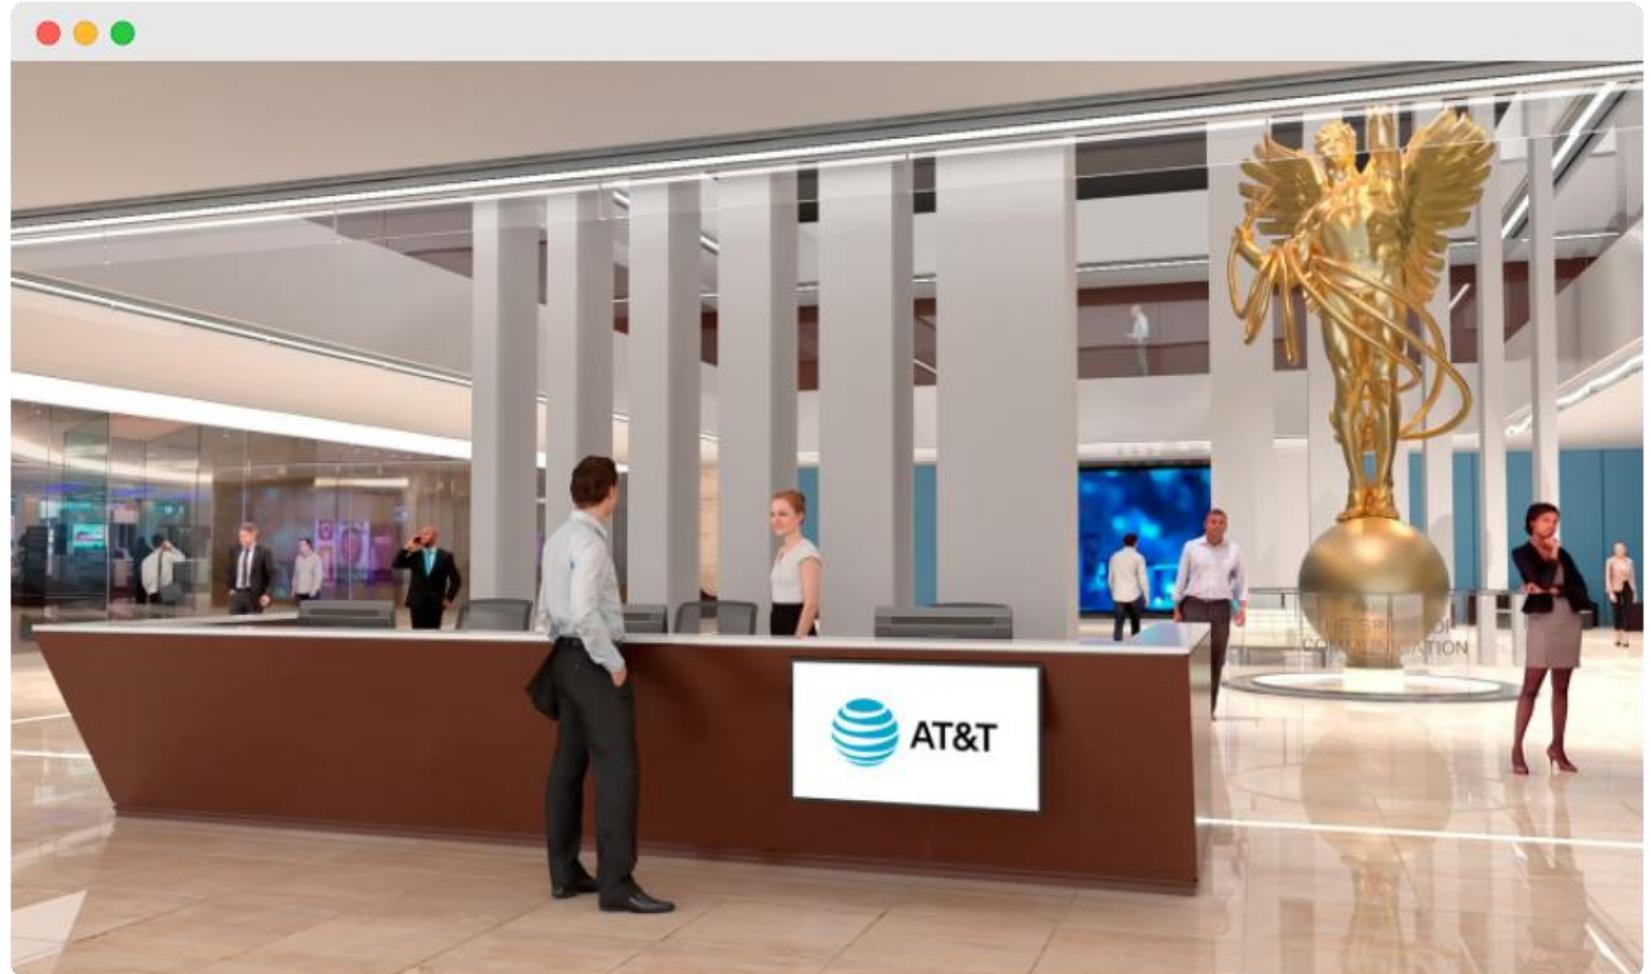

Your attendees do not need to download or invest time in learning a new software.

The platform mimics the dynamics of a physical Conference making it easy to navigate around.

DURING THE EVENT
**Info Booths to Orient
your Audience**

Just like in an actual
Conference, the online
event has a dedicated
information booth to
orient and guide visitors

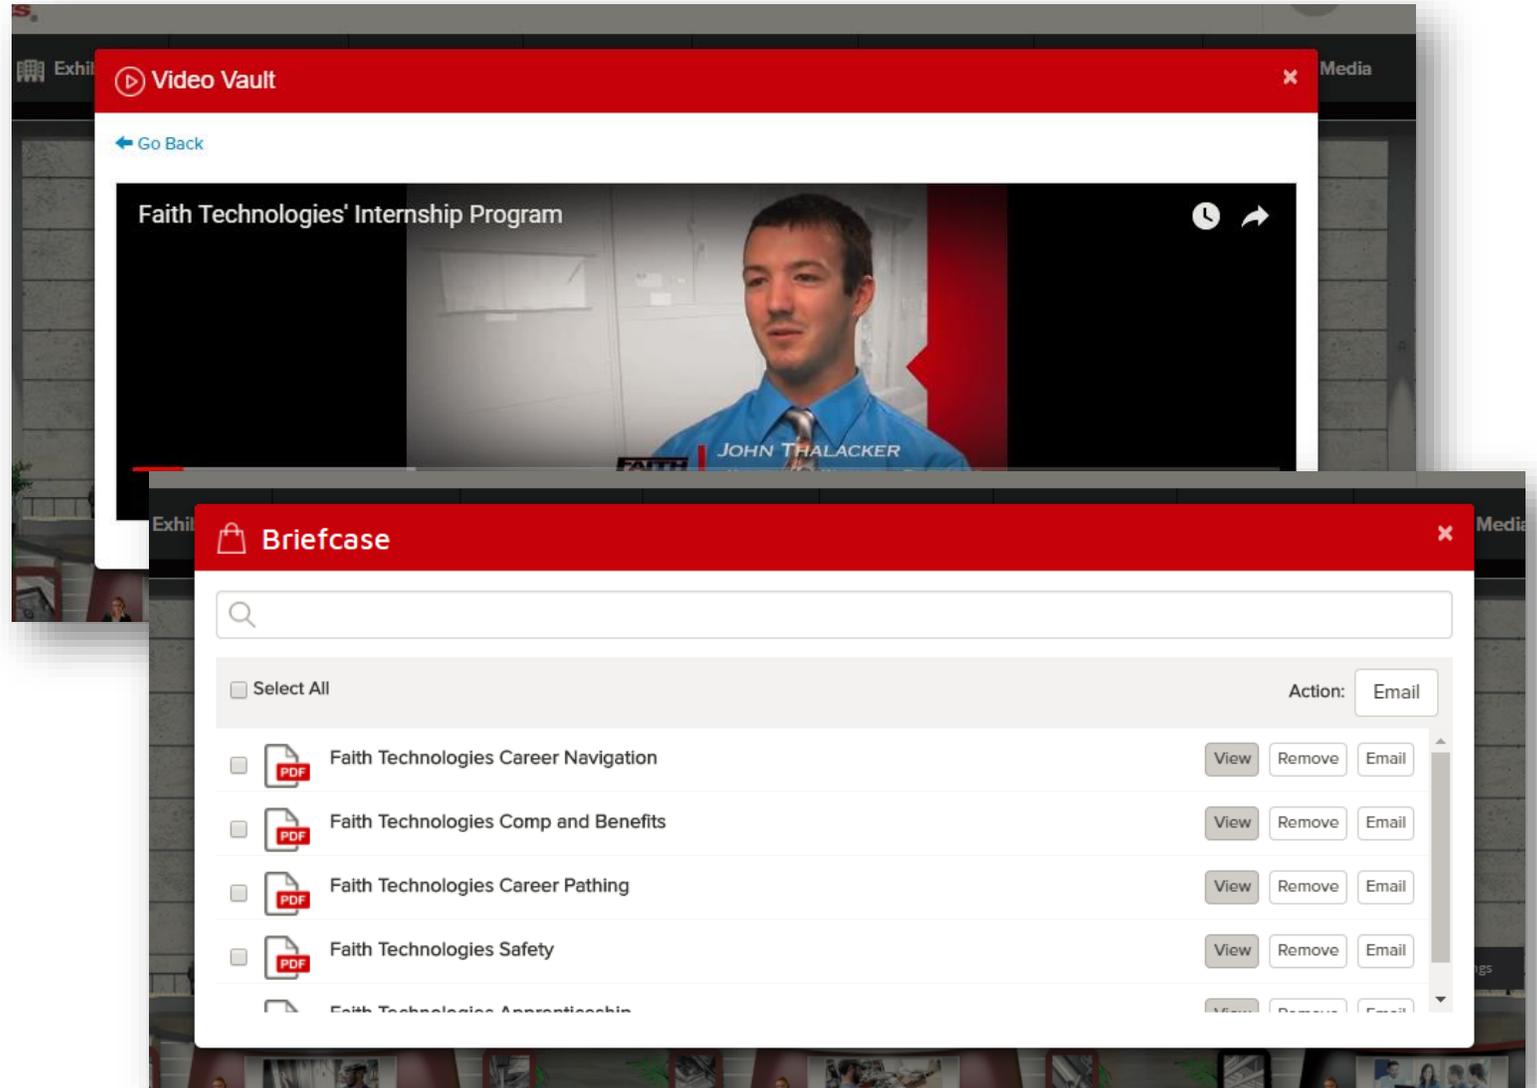

DURING THE EVENT

View Content & Save it to a Virtual Briefcase

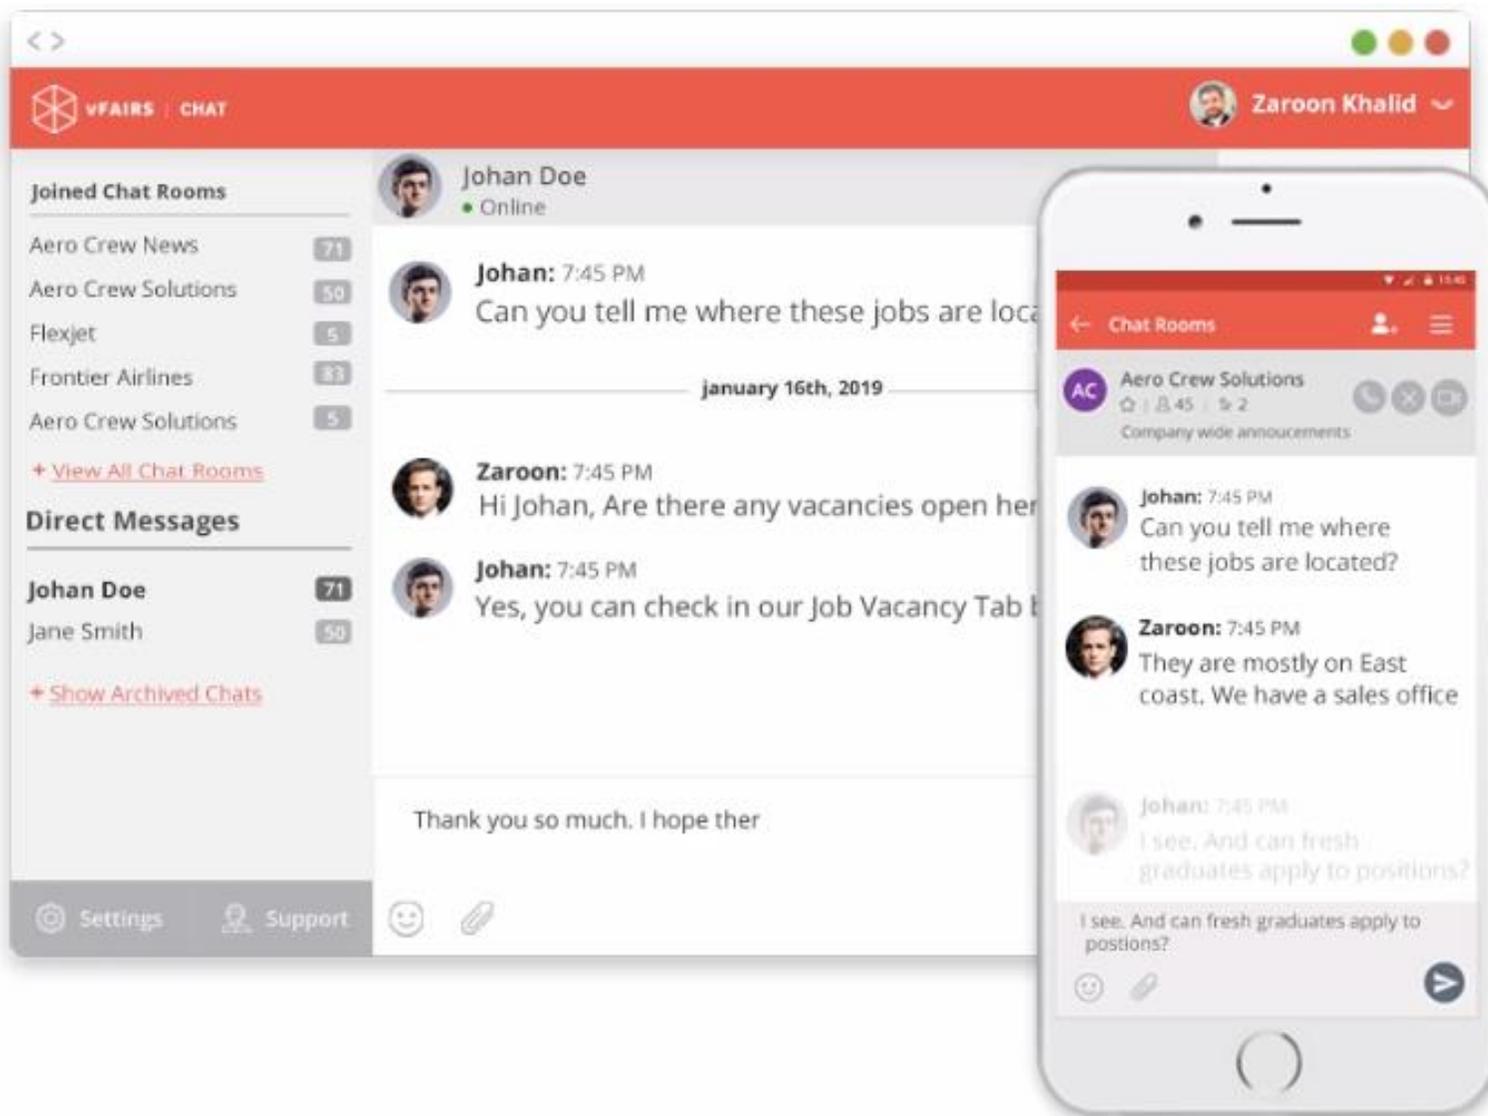

Participants can access Virtual booths where they can view, download & browse content like brochures, images and videos.

They can then save interesting items to a Virtual Briefcase that they can download later.

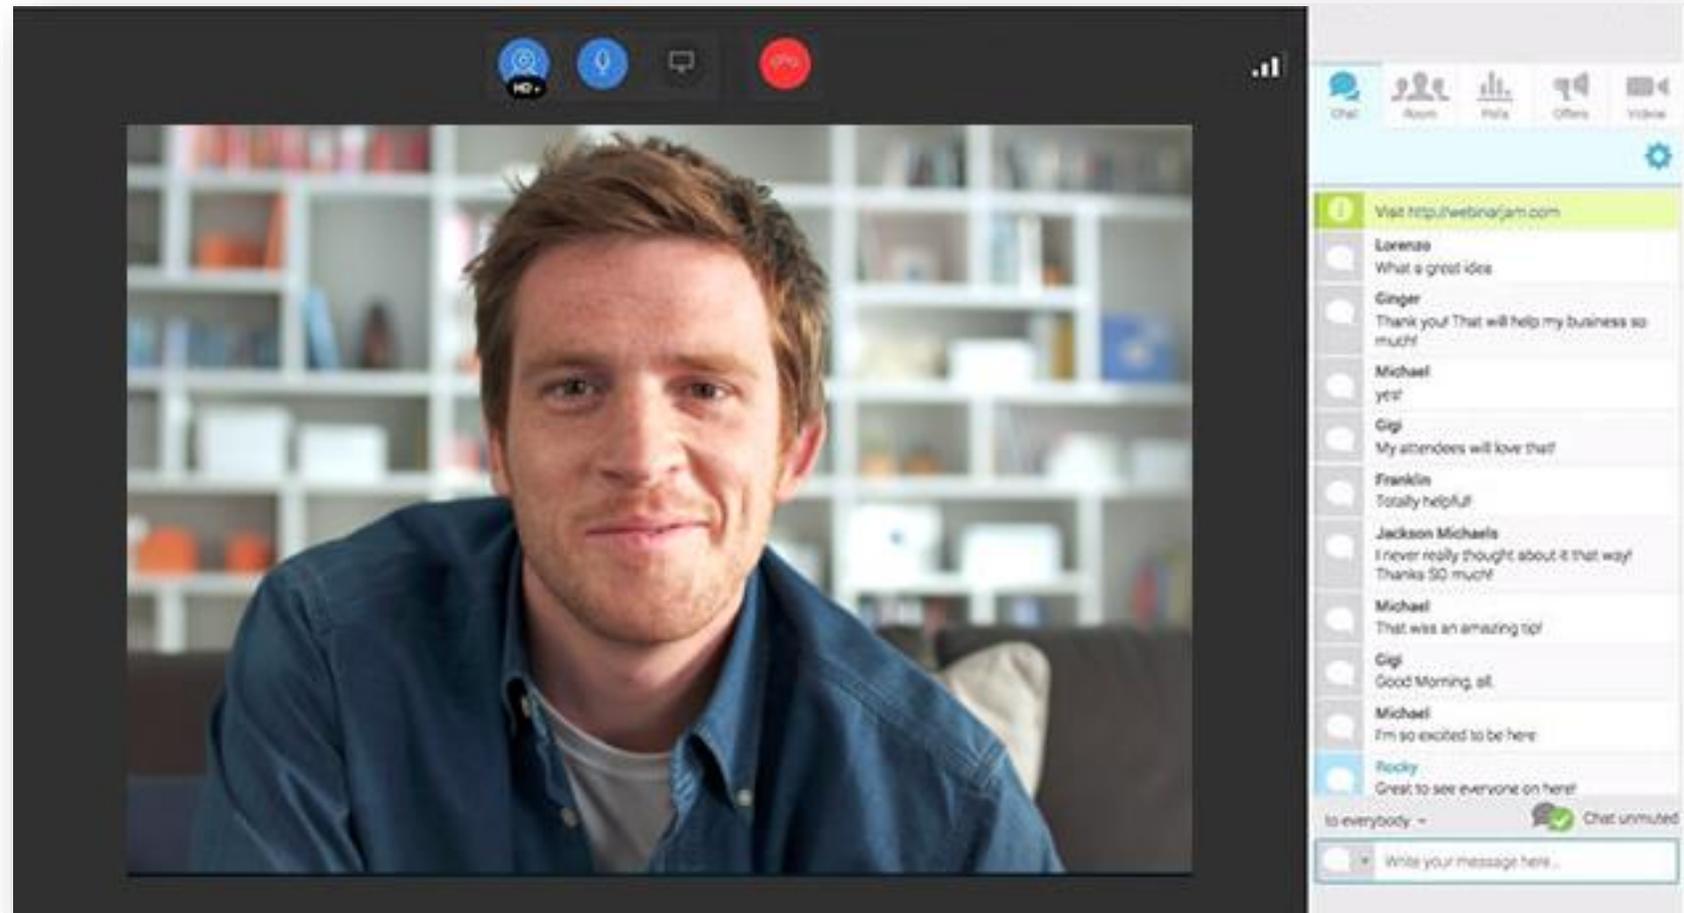

DURING THE EVENT Kickstart Conversations with Chat

Your representatives can start meaningful conversations with attendees using text, audio and video chat, in a 1:1 chat or group chat setting

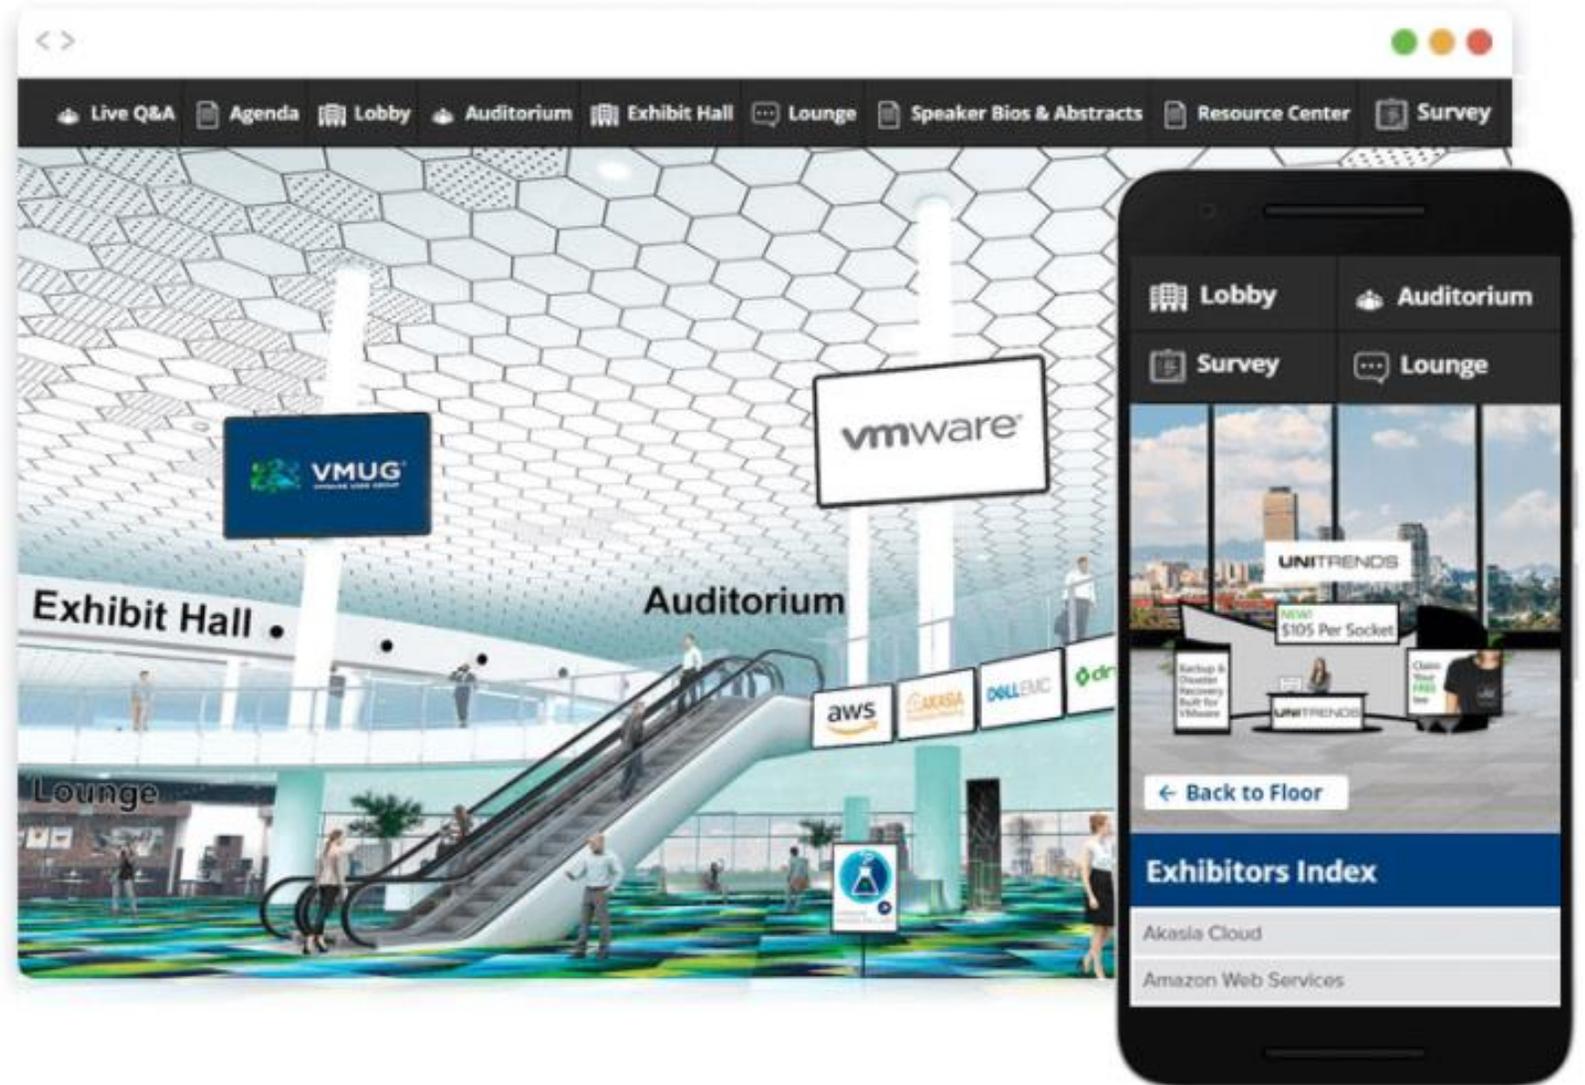

DURING THE EVENT
**Host lectures,
keynotes & talks
through seamless
webinars**

Empower speakers to deliver engaging webinars and facilitate 2-way conversations with Q&A sessions.

DURING THE EVENT Support for all Devices

All Virtual Conferences running on the vFairs platform have mobile-friendly version of the event allowing your attendees to engage on-the-go.

SAY ABOUT US**

Careers Brand Manager

“

We had the privilege of working with vFairs for the first time in July 2016 to execute a virtual recruitment event. We couldn't be more pleased with the outcome!

Working with vFairs made the entire process seamless. Not only were they efficient when making changes to our site, but also always open to the new ideas and suggestions we had.

During the event, vFairs supported us technically from start to finish, though thankfully, we never really needed it. At the conclusion of the event, vFairs sent us a thorough report of the visits, views, and downloads from the booths.

Their customer service is top notch from start to finish – it was an enjoyable experience to work with the vFairs team.

vFAIRS delivered an optimal customer experience - we were very pleased with the technology, the creative partnership, and always-on support we received from the vFairs team.

We are truly excited to continue the use of the vFairs software to help Ford succeed in the virtual hiring space!

The vFairs software is super user-friendly! The features are easily adjusted and the editing mechanisms are intuitive. Multiple users were able to build their booths with unique content, with minimal effort! Ease of use is superb with this software. The aesthetics are also top-notch - look and feel are critical for company branding, and the vFairs platform did not disappoint.

Very easy to deal with & great support

Most amazing thing about this is that it is very customized. Also, very easy in terms of navigation. Great support!

The software is incredibly intuitive and easy to use, which makes it accessible for a wide audience. We had users who are very experienced in IT and user experiences and complimented how great the software was and those with less experience also appreciated how easy it was for them to use it! It helped us put on a successful event additionally, the flexibility of the software means that anything can be customized which was much appreciated! It meant that the software could work around our needs instead of the other way around.

We also received incredible customer support before, during, and after our event. Not only did the software worked flawlessly, but all of our contacts there were a pleasure to work with. All questions and concerns were addressed quickly and treated with the utmost importance, even if I asked the same question several times.
