

# Connected Business Applications for Higher Education Providers

The trusted name in education  
management since 1997

Student success starts with  
Learning Relationship Management

# Take your campus to the cloud

Choose from a comprehensive portfolio of integrated web-based applications

## Manage Sales

Manage leads through the sales funnel and measure their success. Add agents and promotions for international learner opportunities.

## Market Courses

Easily manage what courses are visible on your website and when without the need for I.T intervention.

## Online Enrolments

A complete online enrolment package to collect personal and compliance data directly from the learner at the time of application.

## Manage Learners

Manage your training organisation's learner records, enrolments and qualifications including essential compliance information.

## Learncycle Workflows

Get things done quickly and with more accuracy: program and automate processes based on your training organisation's real-time student lifecycle events.

## Messaging

Perfectly timed communication to all stakeholders, all from within Wisenet. Send ad-hoc or schedule automated messages to an individual or a group.

## Custom Documents

Select from a range of generic templates or create your own including certificates, training plans and letters of offer.

## Compliance

Whatever your compliance requirement, Wisenet has you covered with over 20 years of expertise and support.

## Timetables & Attendance

Comprehensive attendance monitoring, class scheduling and progression reports.

## API

Leverage Wisenet's range of APIs to connect to just about any other system providing you with endless possibilities for the capabilities of your existing applications.

## Water-Tight Security

SSL encryption, two-factor authentication, AWS Cloud hosting and 24/7 monitoring means your data is safe, secure and available when and where you need it.

## Class-Leading Support

Our success depends on yours, that's why we deliver unparalleled support to our customers via phone, online or live chat.

**Wisenet** is the software of choice for more than 1,000 training providers worldwide. With more than 4 million learners under management, Wisenet is one of Adapt IT's flagship offering for Higher Education Providers. Wisenet includes everything a modern education provider needs to market and sell courses, manage enquiries, and generate compliance reports.
